Alzheimer's Research for a Cure

Libations, some nibbles, and fabulous jewelry were on offer one October evening a few weeks ago when Alzheimer's Research for a Cure hosted friends at the Neiman Marcus Precious Jewels Salon. One lucky attendee won a lovely pair of earrings donated by renowned jewelry designer Elizabeth Locke. The private cocktail party was a kickoff event for ARFAC's gala fund-raiser, *An Evening for the Mind*, scheduled for February 6, 2009 at the San Francisco Ferry Building. Chaired by community leader Sandy Mandel, the event will raise money and awareness for Alzheimer's research programs.
